FAQS

What are Permanent Makeup Brows?

- Permanent makeup brows are a cosmetic tattooing technique that enhances the shape, fullness, and definition of your eyebrows. Using a specialized machine or pen technique, and pigment, we create soft, natural-looking brows that mimic the look of hair strokes, powder, or a combination of both techniques.

How long do PMU brows last?

- On average, PMU brows last 1–3 years, depending on your skin type, lifestyle, and how well you follow aftercare instructions.

Microblading Touch-ups are recommended every 12–18 months to maintain the hairstrokes, color, and shape.

Ombre Touch-ups *are recommended every 2 to 3 years to maintain the color and shape. Please reach out before scheduling a touch-up appointment.*

Combination Brows Touch-ups are recommended every 18 to 24 months to maintain the hairstrokes, color, and shape. Please reach out before scheduling a touch-up appointment

Does Permanent Make-Up hurt?

- Pain is minimal and every tolerable for most clients. We use a topical numbing cream before and during the procedure to keep you as comfortable as possible. Most clients describe the sensation as light scratching or pressure.

What's the healing process like?

- Healing typically takes 7-14 days, but full heling can take up to 4-6 weeks. You may experience mild scrabbing, flaking, and color fading as your skin regenerates. Following aftercare instructions is key to achieving the best results.

What's the difference between powder brows, microblading, and combo brows?

- Powder Brows: A soft, shaded look similar to makeup.
- Microblading: Hair-like stroke for a more natural, fluffy brow.
- Combo Brows: A blend of both for shape + realism.

We guide you to choose what's best based on your skin type, lifestyle, and brow goals

How do I prepare before my PMU brow appointment?

- Yes! Post care is crucial. You'll be given detailed instructions upon your booked appointment, but here's a preview to avoid:
  Caffeine, alcohol, and blood thinners 72 hours prior.
  Botox or facial treatments 2 weeks before.
  Sun exposure or tanning.

- *Arrive with clean, makeup-free skin, and be ready to relax!*
-

Are there aftercare instructions after my PMU brow appointment?

  -Keep the area dry for the first few days
  -Do not pick at scabs or flakes
  -Avoid sweating, pools, and direct sun

Brissa is awesome. I was nervous the first time I went to get my brows done. She was so patient and understanding. Help me out to get comfortable. I got my eyebrows done. I love them. I even come back to her to get my eyelashes done. I love them. I totally recommend her. She is the nicest person and bubbly person too. Very professional.

Brissa is such a talented artist. She explains the process and is very professional. I literally researched for a few years prior to get my Eyebrows done, I am so glad I chose to go to Brissa. I am so very happy with her work and highly recommend her services

-Carla V.

Brissa was so kind and patient with the whole process of my combination brows. From the consultation to the microblading. I tend to get antsy and ask a lot of questions but Brissa took the time to answer my questions and concerns and also suggest what would look best on my specific face shape. Brissa is very detailed and intentional with her work as well as professional...
